FOODACEUTICAL

Nutridan Omega-3 Oils are products of groundbreaking technology developed by us, with the unique and innovative Internal Stabilization technology.

Internally Stabilization gives high oxidative stability, extending the shelf life to nearly 9 times more than in a conventional oil.

Nutridan Omega 3 oils can be used as:

- Supplement Vitamin
- Cooking and frying oil

Thanks to its unique characteristics Nutridan can be used for the following industries:

- Bakeries: bread, cakes, etc.
- Frozen food industry: frozen potatoes, frozen ready meals, etc.
- Snack food industry: chips, banana chips
- Food Industry in general
- Health care / Supplement vitamin

Business Industries

NUTRACEUTICALS

Nutraceutical products includes the following lines:

- **Nutrients Ingredients:** Amla extract, Boswellia extract, Brahmi extract, Green Coffee extract, Pomegranate extract, Red Spinach extract, etc.
- **Omega-3 Powder (Nutridan Powder):** Exclusive technology internally stabilized which is used by US companies to hold oxidation: baby milk powder
- **Internally Stabilized Powders:** Unique groundbreaking technology which extend the lifecycle of various powders

Nutraceutical products can be used also in the food and cosmetic industry

Business Industries

ANTIOXIDANTS

Organic and plant-based natural antioxidant:

- **Organic Danox Preservative 7000** – an oil solution of natural antioxidants with anti-microbial properties.
- **Organic Danox Preservative R-7000** - an oil solution of natural antioxidants with anti-microbial properties. Applying modern techniques of extraction, characteristic odor and flavor have been drastically reduced.
- **Organic Danox Preservative 8000** - an oil solution of natural antioxidants with anti-microbial properties, especially designed for powder applications.

Business Industries

HORSE AND PET CARE

- **HIPPODAN** - Highly stable Omega-3 Oil that retains its nutritional value, enhancing the value of current feeding, Optimum for the horses as they cannot generate these essential fatty acids themselves. Our I.S. technology makes Hippodan a unique oil compared to any other product currently available on the market.
- **PET CARE** - Our Pet Food Oil has a very high level of the essential fatty acid Omega-3. The cells within a dog or cat absorb this fatty acid and transform them into friendly hormones like prostaglandin's. This process takes place in the vascular system and kidneys, therefore regulates their vital functions.
